With over 10 years in regulated, operations-heavy industries, my best work happens when I translate customer needs into design goals the business can get behind.

Experience

HiBob | Senior Product Designer ◆ Jun '25 - Current

Leading design initiatives to establish scalable and intuitive features that empower payroll admins to proactively manage and accurately process payroll on-time. Focused on reducing friction and redundancy across key operational workflows.

Shopify | Senior Product Designer ◆ Oct'24 - Apr '25

Led product design and research for Shopify's purchase order experience, conducting ~25 merchant interviews to uncover friction across the experience. Translated customer insights into an end-to-end experience designed to reduce manual work and surface key data points to support better purchasing decisions.

LeafLink | Staff Product Designer ◆ Oct'21 - Apr '24

Designed and shipped LeafLink's 0→1 compliance integration hub, streamlining the seller experience across inventory, fulfillment, and transportation. Grew customer integrations from 80 to 500 in six months and retained ~$1.5M in at-risk ARR.

Led UXR operations for the design team, owning research planning, participant recruitment, surveys, usability testing, and synthesis to inform product decisions.

American Express | Senior Product Designer ◆ Aug'20 - Sep '21

Strategized with product to standardize and streamline the card application process across international markets. Collaborated with the UXR team to advocate for enhancing the consumer experience while satisfying risk & compliance requirements.

Tools

Figma & Make, Claude Design & Code, Cursor, NotebookLM
Contextual inquiry, user interviews, usability testing, survey design

Education

Carnegie Mellon University | B.S. Technical Writing

Minor in Human-Computer Interaction & Fine Arts
